OFFICER COMMENT

Oval:

Retic has remained off although with rising temperatures and reducing rains, this will be considered on a weekly basis depending on evidential stress.

Winter weeds are being treated with Kamba M as required. Meridian, for the treatment of beetles has been purchased and will be applied prior to the end of September.

Cricket Pitch:

Has been verti-mowed by staff and will be treated with Meridian as per the oval.

Tennis Courts:

The Tennis Club conducted a busy-bee to verti-mow the playing surfaces. The enthusiasm and cooperation of the Tennis Club is greatly appreciated and reflects how well clubs and the Shire can work together.

As per the oval and all other turf areas, the courts will be treated with Meridian towards the end of September.

Reticulation has been turned on to assist regrowth after the verti-mowing and will be monitored weekly according to weather patterns.

Hockey Ground:

Reverts back to care and maintenance for the summer period.

Bowling green:

Has been treated again for mould with another treatment planned before the end of October.

A general clean-up will be undertaken to remove debris from gutters and weed control as required.

General:

Pavilion lawns continue to present well with reticulation being managed on a needs basis. The area in front of the change rooms has again been verti-mowed.

All pavilion lawns will be treated with Meridian.

At time of reporting, dam was approximately 0.7m.

A Turf Consultant attended the Recreation Centre and met with the CEO and works staff. His initial comments are that the Shire should be congratulated on how well the areas are maintained.

A management programme will be developed which will guide staff as to appropriate times to apply certain fertilisers and insecticides to promote even greater growth, health and assist in maintenance. The programme will also identify supplements to be added on a seasonal basis.

OFFICER RECOMMENDATION/S – ITEM NO 8.2.2

PURPOSE OF REPORT

SUMMARY AND KEY ISSUES

- Mapping for the WSFN loosely started in 2014 through the various RRG's
- The WSFN started in 2016 with a working group consisting of the North and South RRG's, WALGA, MRWA, RDA Wheatbelt, Wheatbelt Development Commission and others
- Council has committed \$6000 to the WSFN for the 2019/20 year

LOCATION

Whole of Wheatbelt

BACKGROUND

The Wheatbelt Secondary Freight Route (WSFN) network in the Main Roads WA Wheatbelt region comprises some 4,400km of Local Government managed roads that connect with State and National highways to provide access for heavy vehicles into the region.

These roads are intended to enable large, high productivity trucks safe and cost effective access to business. The WSFR project is developing a business case, with the supporting evidence and documentation required, to seek the addition of a program of road improvements across the network be added to the Infrastructure Australia Priority List.

The WSFN has been successful in receiving grant monies to commence planning and projects. In addition to the grant funding, the 42 local governments covered have committed \$6000 each towards the project management.

According to grant requirements, and to ensure local government are aware as to how and where the money will be spent, it is necessary to implament governance plans to manage the project.

The WSFN has requested all local governments report to their Sub-Regional Road Group Council comments or identified issues.

CONSULTATION

Numerous media releases exist in relation to the WSFN. In addition, Council is aware of the progress as a result of previous items relating to the funding.

On review of the documents provided, they appear to be fit for purpose and clearly identify the roles of the WSN and how monies are to be utilised.

The methodology relating to the assessment criteria is firm in principle and is not dissimilar to existing processes undertaken through the Regional Road Group system.

It is considered appropriate for Council to endorse the documents and instruct the Shire President, as delegate to the Sub-Regional Road Group (Wheatbelt North East), to provide support to the same at the next meeting.

OFFICER RECOMMENDATION/S – ITEM NO 8.2.3

That Council receives and notes the Wheatbelt Secondary Freight Network Governance Documents and instructs the Shire President, as delegate to the Sub-Regional Road Group (Wheatbelt North East), to provide Council's support of the documents.

PURPOSE OF REPORT

For Council to authorise the application of the Shire Common Seal to an Application for New Titles document(s) and for the signing of the same.

SUMMARY AND KEY ISSUES

- Lots 213, 214 and 217 are the subject lots where the CEACA houses are being constructed.
- As part of the CEACA project, Council has previously committed to amalgamating the lots and then transferring the new titles to CEACA
- The application for new titles is the final phase of the subdivision (amalgamation) of the subject lots
- Following the issue of the new title, a transfer to CEACA would need to take place.

LOCATION

Lots 213, 214 and 217 Second Avenue, Nungarin.

BACKGROUND

An application for new title is required to finalise the amalgamation of the CEACA housing lots to progress the overall development of the project.

Council is aware, that as part of its commitments to CEACA, the land where the houses are built are owned by the Shire. As the development required building over existing boundary lines, and to make more efficient use of space, the subject lots were required to be amalgamated.

Accordingly, all surveys have been undertaken and documents lodged as part of the CEACA project expenses, of which the Shire contributes annually towards.

The final step in the amalgamation is to apply for the new title for the land. Following this, the Shire would then be required to transfer the land to CEACA further forming part of its contribution to the project.

All legal documents of this nature require the Shire Common Seal to be applied.

CONSULTATION
