PURPOSE OF REPORT

For Council to consider the Waste Options Report and the decision made by NEWROC in relation to the report.

SUMMARY AND KEY ISSUES

- ASK Waste Management was commissioned by NEWROC to undertake a waste management review
- The report provides a number of options for NEWROC to work collaboratively in relation to waste management
- NEWROC has considered the report and has supported one of the options, this is now subject to review by member Councils

LOCATION

N/A

BACKGROUND

Waste management was identified as a strategic priority by the NEWROC in 2018. Giles Perryman of ASK Waste Management attended and presented to member Councils in Koorda in 2018 to discuss waste and how the NEWROC could work together to improve infrastructure, practices and processes.

To further develop the priority, the NEWROC engaged ASK Waste Management in 2019 to achieve the following objectives:

- Assess current waste facilities across each member local government
- Investigate ways to improve each member's landfill site (and to use the study as a base for grant applications)
- Investigate improved options for waste management across the members

ASK Waste Management presented a report to the NEWROC which discussed a number of options to help member Councils meet the above objectives.

ASK Waste Management modelled four options to consider as a future strategy for members to adopt.

These options centred on:

- improving waste management infrastructure, practices and procedures both individually and collectively
- to meet compliance and anticipated new regulations and
- to work together to attract external funding.

The presented options included:

- Option 0: Baseline cost of current operation
- Option 1: All landfills unstaffed (remote access)
- Option 2: All landfills (remote access) plus two staffed landfills
- Option 3: All transfer stations (remote access) plus two staffed landfills - weekly collection
- Option 3: All transfer stations (remote access) plus two staffed landfills - fortnightly collection
- Option 4: All transfer stations (remote access) plus one staffed landfill - weekly collection
- Option 4: All transfer stations (remote access) plus one staffed landfill - fortnightly collection

NEWROC, at its August Council meeting resolved the following:

RESOLUTION

The preferred option for the NEWROC is 4: All transfer stations (remote access) plus one staffed landfill - weekly collection

Member Councils to discuss this option at their next Council meeting and provide feedback to the NEWROC

Moved Cr Sachse

Seconded Cr Shadbolt

CARRIED 5/1

Accordingly, this matter is now presented to Council for its review and consideration.

STRATEGIC IMPLICATIONS

There are no Strategic Plan implications evident at this time.

POLICY IMPLICATIONS

There are no specific statutory requirements in respect to this matter.

FINANCIAL IMPLICATIONS

There are no financial implications evident at this time.

ENVIRONMENTAL IMPLICATIONS

There are no environmental implications at this time.

SOCIAL IMPLICATIONS

There are no social implications at this time.

OFFICER COMMENT

In considering the options, it should be noted that waste management is continually emerging as an issue of compliance for local government. Waste management is sensitive and clouded with risk that makes it an unviable aspect of local government.

In considering the options at hand, Council is reminded that at present, there is considerable effort being made to bring the Nungarin waste facility to a certain standard.

NEWROC has considered that Transfer Stations is the most viable solution and, from an officer's perspective, there is agreement in this view.

Accordingly, it is recommended that Council identify that it supports Option 4 as per the NEWROC resolution and request NEWROC to further continue its work on this matter.

OFFICER RECOMMENDATION/S – ITEM NO 8.2.3

That Council:

- 1. Receives the ASK Waste Management NEWROC Regional Landfill Strategy report as presented; and**
- 2. Advises NEWROC that it supports “Option 4: All Transfer Stations (remote access) plus one staffed landfill – weekly collection” and requests NEWROC to continue and further its research into this option.**

- Three companies were invited to a site inspection and submit a quote
